

USER STORIES

1. As a **Client**, I want to create a job listing by entering details such as title, description, budget, deadline, and required skills so that I can post it to the platform.
2. As a **Client**, I want to view, edit, or delete the jobs I've posted so that I can keep my job listings up to date and relevant
3. As a **Client**, I want to view all the applications submitted to my job postings so that I can choose a freelancer who is the most suitable for my job listing.
4. As a **(Client/Freelancer)**, I want to be able to switch my role between Client and Freelancer so that I can use the platform to both hire others and offer my own services.
5. As a **Freelancer**, I want to apply for available jobs by submitting a proposal with my message so that I can be considered by clients.

6. As a **Freelancer**, I want to view the jobs I've applied for and also view their current status so that I can stay updated on my application progress.
7. As a **(Client/Freelancer)**, I want to see a dashboard tailored to my current role so that I can quickly access relevant functionality.
